MEDIA RELEASE

Ref: No. 256

Namibia Dairies strengthens DD Guibeb primary school feeding program

WINDHOEK, 27 July 2017

The DD Guibeb Primary School in Mariental last week received 552 litres of milk from Namibia Dairies (ND) – a subsidiary of the Ohlthaver & List (O&L) Group. This annual donation to the school re-affirms ND's support towards the school's feeding program says Director: Agri-Business at Namibia Dairies' !Aimab Superfarm, Borney Britz. This follows one week after ND donated 600litres of milk to the Moses Garoëb and Monte Christo Primary Project Schools – also an annual initiative in celebration of World Milk Month that is commemorated in June every year.

Britz: "Namibia Dairies fully supports and is very passionate and dedicated to living the group's purpose of 'Creating a future, enhancing life' for all Namibians. We are also proud of the DD Guibeb Primary School initiative of the school's feeding program – a great example set by this school of making an effort to make a difference, especially in self-support initiatives. We remain committed to contribute to uplifting the livelihoods of the communities in which we operate and as a milk and dairy producer and supplier, we are humbled to give back to the community as we want to make sure that all Namibians enjoy quality of life. Education is one of our key focus areas as a group, hence our commitment to support our local schools and contribute to a healthy and safe learning environment."

O&L Group Corporate Social Investment (CSI) Coordinator, Venessa Mwiya: "No child can learn on an empty stomach - a healthy body equals a healthy mind. O&L is always happy and proud to enhance the lives of our country's future generation, especially in contributing to providing a good learning environment, and relevant nutrition to keep the minds and bodies healthy. We are once again proud to contribute to the DD Guibeb Primary School's feeding program, and trust this donation will go a long way in helping the learners achieve their greatest potential."

Principal of the school, Alex Kamburute said the feeding program of the school benefits greatly from this donation. Kamburute: "Our children are mostly fed maize (porridge) through our feeding program, and we are unfortunately not in a position to consistently provide them with any supplements. This milk donated by ND annually always makes such a big difference, and contributes immensely to good health of the learners. I am truly grateful for this kind gesture by Namibia Dairies. I am confident that our relationship with Namibia Dairies will continue to grow from strength to strength."

DD Guibeb Primary School currently accommodates approximately 560 learners from grades 1 to 7.

Ends,

INTRODUCING THE O&L PORTFOLIO
